Professional Summary

- Recent Electronics & Telecommunication Engineering graduate with expertise in web development
- Proficient in key technologies: Python, React JS, Django, HTML, CSS, JavaScript, and SQL.
- Completed hands-on internships, including roles at Jawaharlal Nehru Port Trust.
- Developed dynamic web applications, such as a Shopify-based e-commerce platform and a healthy lifestyle diet planning site.
- Recognized for strong self-discipline, adaptability, and problem-solving under pressure.
- Eager to contribute technical skills in a challenging role to drive innovation and impactful results within a progressive organization.

Technology Skills

- **Programming Languages:** Python, JavaScript
- **Web Development:** HTML, CSS, Bootstrap, jQuery
- **Frontend Frameworks:** React JS
- **Backend Frameworks:** Django
- **Databases:** MySQL
- **Version Control:** Git, GitHub
- **Development Tools:** Visual Studio Code

Education

2020-2024 | BVCOE | CGPA: 8.9

Bachelor of Engineering in Electronics and Telecommunication

Modules: Database Management System, Cybersecurity Laws, Computer Communication Network, Cloud Computer and Security, Data Compression and Cryptography, Mobile Communication Systems, Wireless Networks

HSC | 2018-2020

Changu Kanha Thakur Junior College New Panvel.

Percentage: 63.54%

Projects

Rock Paper Scissors Game

Technologies Used: HTML, CSS, Bootstrap, JavaScript

- Designed and developed an interactive web-based Rock-Paper-Scissors game.
- Implemented core game logic in JavaScript, enabling real-time gameplay against a computer opponent with dynamic win/loss/draw conditions.
- Designed a clean and responsive UI using CSS, enhancing user experience across different devices.
- Built a responsive user interface with HTML and CSS, ensuring smooth and intuitive user interactions
- Focused on clean, modular, and reusable code to ensure maintainability **and** scalability.

Tic Tac Toe Game

Technologies Used: HTML, CSS, Bootstrap, JavaScript

- Developed an interactive Tic-Tac-Toe game, allowing two players to compete in real-time on a responsive game board Utilized Bootstrap for responsive design, creating a clean, user-friendly interface accessible across devices.
- Implemented JavaScript to manage game logic, including player turns, win detection, and draw conditions.
- Designed a clean and responsive UI.
- Added a reset feature to restart the game seamlessly without reloading the page.
- Ensured maintainable and modular code for scalability and further enhancements.

Shopify E-Commerce Website

Technologies Used: HTML, CSS, Bootstrap, JavaScript, React JS

- Designed and developed a responsive e-commerce platform using React JS, HTML, CSS, and Bootstrap for a modern, visually appealing UI.
- Implemented core e-commerce features, including product listings, shopping cart, checkout, and order tracking, to enhance the user experience.
- Optimized website responsiveness and cross-browser compatibility for seamless use on both desktop and mobile devices.
- Used JavaScript for dynamic functionality and interaction, ensuring a smooth and engaging user interface.

Healthy Lifestyle Diet Plan

Technologies Used: HTML, CSS, Bootstrap, JavaScript

- Developed a web application for creating personalized diet plans, designed to support users in making healthier lifestyle choices.
- Utilized Bootstrap for responsive design, creating a clean, user-friendly interface accessible across devices.
- Implemented JavaScript-based form validation to ensure accurate user inputs and improve data integrity.
- Created interactive elements and smooth navigation, enhancing overall usability and user engagement.
